

## **Lighthouse Elementary School & Beacon Cove Intermediate School**

### **2011-2012 Policy on the distribution of flyers/promotional materials**

Palm Beach County School District defers to the principals to set guidelines and restrictions on flyers sent home with the children.

Lighthouse Elementary School, Beacon Cove Intermediate School and the Parent Teacher Organization for both schools are committed to maximizing the amount of time our teachers are able to devote to teaching while minimizing the amount of time they must spend on administrative tasks.

We are also committed to modeling environmental stewardship, wisely managing the use of natural resources, and supporting conservation.

Finally, we are committed to the families of the children and take their feedback seriously. Parents do not appreciate flyers.

Teachers, parents, and the environment have been burdened by the volume of flyers sent home each day. In keeping with our foregoing commitments, the schools and parent teacher organization have adopted a uniform policy for the 2011-2012 school year prohibiting the distribution of flyers for any organization or business. Provided, however, certain registered Business Partners may distribute flyers as provided for in their Business Partnership Agreements.
