

Lighthouse Elementary School (K-2) and Beacon Cove Intermediate School (3-5) service over thirty six local Jupiter neighborhoods and reach more than 1,800 families in Palm Beach County. As "A" rated and Five Star schools, both draw residents and breathe life into the Abacoa/Jupiter area. These families live, work and play in the surrounding area and support local businesses. The success of Abacoa is dependent in large part upon the success of these two neighborhood schools.

To allow the schools to reach their full potential despite budget cuts, the Parent Teacher Organization for each school funds multiple teacher and administrative positions, provide enrichment tools to the schools and helps fund their various extracurricular activities throughout the year. The PTO also provides the manpower necessary to support the school's activities by soliciting, organizing and running large groups of volunteers. Each PTO is a non profit organizations, operating solely on donations and monies raised through its annual fundraisers.

This 2011-2012 year, we are pleased to offer local business partnership opportunities to expand our donation program and involve local businesses. These programs offer more extensive advertisement opportunities in various ways to our business partners throughout the school calendar year while helping the schools succeed. Please consider make a tax deductible donation to the PTO at one of the following levels:

Cash Donation Levels

Event Sponsor - Please call to discuss the event.

- Business banner displayed at the event
- Business name branded to the event (i.e. Roger Dean Stadium Mother Son Movie Night)

School Partners - \$250.00

- Business logo and name on the PTO website for 2011-2012 school year
- Thank you letter and Business partner recognition at May PTO meeting

Service Donation

We would appreciate any and all donations of services, merchandise, food and beverage or products that can be used throughout the year or for a specific event. (i.e. gift certificates that can be used for auctions and other fundraising events). These businesses will be recognized on the PTO website.

Wish List Donations

We would appreciate donations of educational equipment and tools. A name tag or plaque of your business will be displayed thanking you for your generosity. Lighthouse is in need of ten outdoor umbrellas for the children's picnic tables. Beacon Cove is in need of a sponsor for their Get Real Guidance t-shirts that promote children making good choices.

Sponsor A Special - One Time Donation of \$250.00, and opportunity for donation of time and expertise

The children's basic studies are supplemented with special classes like science, art, music, writing, computer lab and physical education. Sadly, while these classes are essential to forming well rounded young minds and helping mold a successful future generation, they are often the first to be impacted by budget cuts. For the first time, we are thrilled to offer local businesses the chance to sponsor a "special". We would like to partner local businesses with a special class or extra curricular activity that is special to the business. It is an opportunity for the business to provide its expertise, in addition to financial support, while cultivating a future generation with interest in that business.

Every donation of time, talent or money, no matter the size, makes a difference. We appreciate your support and know it will have a positive impact on the programs and services provided to Lighthouse Elementary School and Beacon Cove Intermediate School.

Sincerely,

Allison Whitley Maffei

Business Partner Coordinator for Lighthouse Elementary School and Beacon Cove Intermediate School
